CREATE YOUR OWN AQUATIC ADVENTURE

SMART PHONE EVERYWHERE
BE SMART ANYWHERE!

ariCASE

We know you love to carry your smart phone everywhere, that's why we not only provide you the waterproof case. We provide you the brand new **ariCASE** with sport accessories!! Now you can enjoy your favorites sport, with your smart phone anytime, anywhere.
Why we have that idea? Because we are sport lovers too!
Now let's Create your own **ariCASE** adventure!!!
Remember "Smart phone everywhere, Be smart anywhere!"

Full Waterproof IP-58 Protection

The **ariCASE** has a unique design that makes it waterproof to a rated depth up to 30 meters exceeding IP-58, the highest 'International Protection' rating. No other phone case provides submersible protection.

Complete IP-58 Protection in the Snow

The **ariCASE** provides the same complete IP-58 protection as it does in water, preventing melting snow and ice from wicking into your device through pooling or capillary action.

Total IP-58 Dust Protection

ariCASE provides full IP-58 level protection - continuously and permanently sealing your device against exposure to mud, sand, grit, dust, and lint exposure. No other phone case provides anything close to this level of dirt protection.
Dust is a most insidious problem because minute particles become wedged in between regular cases and the mobile device causing abrasive damage and causing chaos in the device mechanisms.
